### Limitations of NLP

**It's Gullible.**

It will believe anything it reads

It doesn't have contextual understanding of the world and facts that happened in the past

**the ONION**

POLITICS SPORTS LOCAL ENTERTAINMENT OPINION VIDEO CLICKHOLE

**Study Finds They Just Don't Make 'Em Like Ginger Rogers Anymore**

**Aunt Somehow Got Married, Divorced Twice Since Last Time Nephew Saw Her**

**Nation Finally Breaks Down And Begs Its Smart People To Just Fix Everything**

**nope @LINasX**

my bank account 7 months ago vs. now. thankful for the blessings. ✨

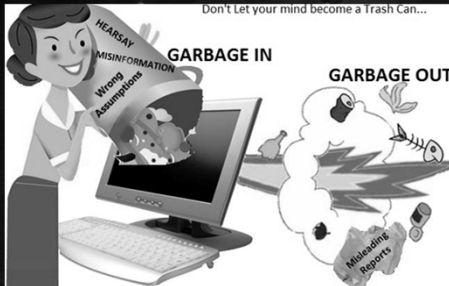

Account Summary	Account Summary
<b>\$0.74</b> Available balance	<b>5 BILLION HUNDRED</b> Available balance
<b>-\$4.98</b> Available balance	<b>100 THOUSAND MILLION AND 7</b> Available balance

## Limitations of Machine Learning

VS

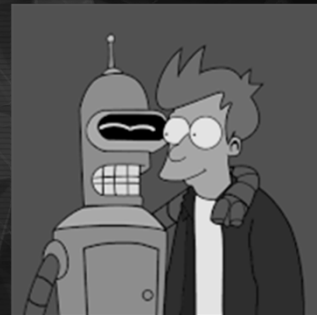

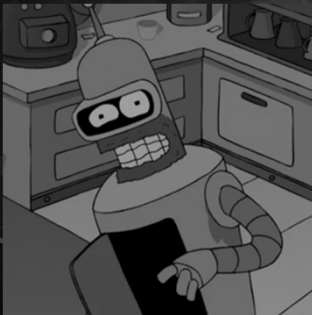

**Supervised Learning** relies on the data being correct from the beginning

**Unsupervised Learning** produces less accurate results

13

AI isn't meant to be the solution.  
AI is an instrument to make better informed decisions in less time.

14

WHERE WILL THE  
FUTURE OF AI  
TAKE DUE DILIGENCE?
